

# ARC Project Closeout

## The Leading Mobile Closeout Delivery Tool

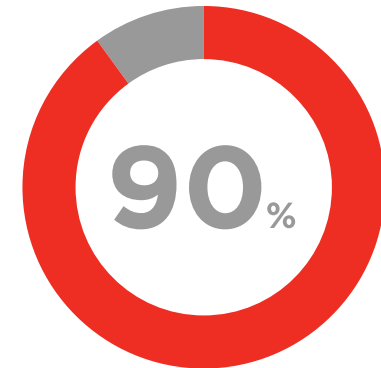

Using Project Closeout to Save Time and Money, Delivered to You in 1 Week

# This is a nightmare!

Closing out your project should be simple, but there are usually many problems that you can face:

- Difficult to gather from subcontractors
- Laborious to track and organize
- Multiple locations and formats
- File naming/types not consistent
- Documents get lost
- Final payment is often withheld

**of project closeouts  
are still paper based**

# This is ARC Closeout Services

ARC provides a number of products and services throughout the construction process, but one area where contractors & owners consistently fall short is the closeout process.

Users want a quick and organized deliverable that will not only help them closeout projects faster, but will be easy to locate the information that they are searching for.

## Closeout Deliverable (Project Dashboard):

**1 year subscription to SKYSITE included**

### Featured on closeout dashboard

- Plans
- Specifications
- RFI's
- Submittals
- As-Builts
- O&M's

- Warranties

# Project Closeout

## Capture

ARC collects all your digital and physical files then scans and digitizes all your information.

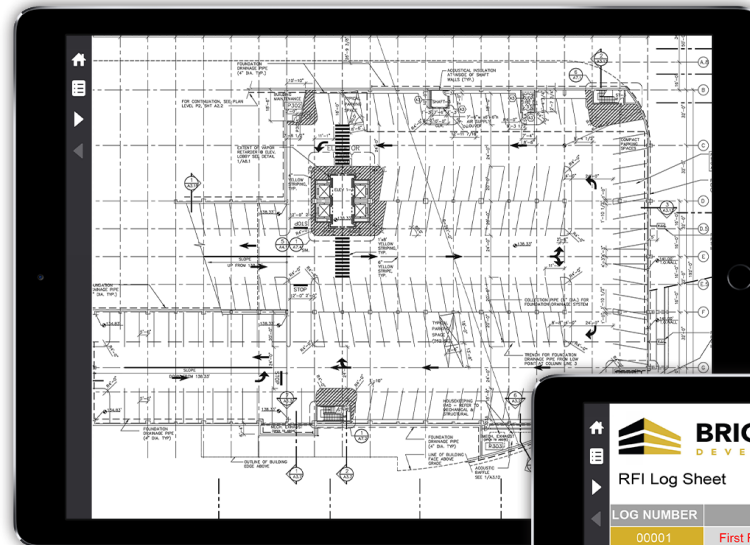

## Organize

ARC's construction document experts organize digitized information through indexing and linking, making everything available to you through the mobile facilities dashboard.

## Find

All building information is instantly accessible to you and your team, anytime, on any device—even without an internet connection.
